UNIVERSITY SMART PARTNERSHIP IN ELEVATING COURSES

Mega Jati ACADEMY has taken the existing competency courses into a higher level through smart partnerships with several local universities.

Well structured programs are designed to enhance related skills and knowledge for career advancement and open the opportunity to pursue studies other than through conventional academic programs.

The programs are conducted in modular and part time basis to allow students to adjust their time and fulfill the program needs. The learning modules are approved by the relevant certification body and University's senate that enables students to obtain professional diploma or professional degree or professional master together with the industrial competency certificate.

Programs selection are varies according to Malaysian major industry like construction, food and manufacturing and facility management. Similar programs are also available by adaptation from ASEAN collaboration countries.

MONTHLY TECHNICAL WEBINARS

To emerge stronger from the Covid-19 pandemic crisis, Mega Jati ACADEMY is elevating the training and learning approach.

Changing technologies and new ways of working were disrupting the method of an older way in delivering training.

Meeting the challenge in financial issues, venue limitation, safety and health of the trainer and trainee, Mega Jati ACADEMY has discovered that the old ways of delivering trainings were about to be converted and in-trend.

Continuing to offer re-skilling, up-skilling and continuous professional development courses, we chose WEBINAR via ZOOM as our new approach in training and learning.

July, 2021 was the launching of our first Luncheon Webinar and with numerous technical, engineering and construction related topics been given put. The idea of attending the webinar while having your lunch was a quick fixed and easy to be accepted by many.

LEARNING MANAGEMENT SYSTEM (LMS)

**Fully automated | Learn at your own pace
| Get engaged with hundreds of references |
Save time | Value for money |**

In today's fast-paced work environment, organizations or companies need to keep their team up to the latest trend of learning or training methods. How to have an effective training at a low cost for your team? That's possible with our ACADEMY Learning Management System (ALMS).

The LMS is designed specifically to create, distribute and manage the delivery of educational / lessons / training content, activities and assessments. The system also to facilitate access to learning materials that range from written materials and presentations to videos and interactive lessons.

Keeping track of learner progress makes learning interesting and engaging. All UniMAP Professional Programs are equipped with LMS platform.

The advantages of using LMS :

- Trainers can use established models to deliver more personalized lessons and increase the engagement level of participants
- Participants can learn on their own via computers, laptops and mobile devices to keep learning alive 24/7
- Increases the flexibility and creativity of the learning materials, which enhances the participant experience and encourages shared collaboration
- Participant progression through lessons and assessments becomes more self-driven (tapping into the natural way human learn)

GREAT SUPPORT FOR TECHNICAL & VOCATIONAL EDUCATION AND TRAINING

More than 85% of Mega Jati ACADEMY offered courses are related to technical & vocational education and training (TVET).

TVET program or courses will equip you with the practical skills that will transform you into a skilled and professional worker ready for the real world. TVET courses are not limited to an education for workforce, career & technical, professional and vocational and occupational.

TVET has its own special place in Malaysia education system that offers better pay and with the raising of new created job, which will require more skilled workers.

TVET is not the last resort as many still see and think it to be. It is always a good option of education for everybody.

We provides TVET Education areas that in line with Malaysian TVET Frameworks subscribed from UNESCO-UNEVOC Country Profiles information to be specific and relevant in elevating the competency training in Malaysia.

UK BASED AWARDING ORGANIZATION

OTHM is a UK based Awarding Organisation (Certification Body) approved and regulated by Ofqual (Office of the Qualifications and Examinations Regulation) in England. OTHM is a not-for-profit organisation and so it endeavours to ensure that its fees are always as affordable as possible without compromising the quality and standards of its qualifications.

OTHM qualifications are developed to equip learners with the knowledge and skills that employers are looking for. Pursuing an OTHM qualification will give you the opportunity to enhance knowledge of business and management and grow key competencies to tackle work projects and situations more effectively. This in turn gives you the potential to get promotion within workplace.

Endorsed Learning Programmes (ELP) is the recognition attained for the programs. This endorsement helps the program to stand out from the rest.

The availability of such endorsement gives learners, employers and wider businesses and industries confidence that the programs are developed around best practice and are working towards globally recognised standards. Annual quality assurance carried out by OTHM is also a feature of the program and ensures it meets OTHM standards and provides confidence to learners in the achievement of our program. All OTHM certificates come with a transcript of study to provide clarity to learners along their career pathway.

MEGA JATI ACADEMY SDN BHD IS THE APPROVED CENTRE OF OTHM QUALIFICATION WITH REGISTERED NUMBER DC2012488.

IT TAKES BOTH SIDES TO BUILD A BRIDGE

MJA is now expanding our training and education business across ASEAN countries through ASEAN training & education collaboration. Most of the courses offered are very close-related to TVET and this collaboration is an effort to strengthen, upgrade and uphend TVET across countries.

Through TVET, the focuses are on the acquisition of knowledge and skills for the world to work, helps youth and adults develop skills needed for employment and entrepreneurship. These are the essetial supports to a sustainable economic growth.

The collaboration is an extended promotion to ASEAN family ties in intensifying the cooperation among members as well as to advance interests in economic and trade growth, purposely in training and education.

MEGA JATI ACADEMY FUTURE OUTLOOK

For the way forward, we plan to pursue registrations with more organizations to cater for personal and organizational human development training needs. Several organizations have been identified as part of our continuous effort in placing Mega Jati ACADEMY as one of the prominent training provider in Malaysia in the very near future especially in construction, energy management, facilities management, engineering management, safety & health, and the environment. All these opportunities will be continuously explored by our dedicated staff and top management.

Meanwhile, internal continuous improvement will always be carried out to meet the satisfaction of our clients for every program conducted. There is no end for improvement and no compromise in providing quality services for our clients.

We hope for the support of our fellow Malaysian, respectful ASEAN collaborators and technical workforce to seize the opportunities available in enhancing their skills through both competency and CPD training that we offer in Mega Jati ACADEMY.

Learning never exhausts the mind.
